**LOGIC Devices Re-Enters the Asynchronous SRAM Market
with a Military Grade Product Family**

Sunnyvale, CA – LOGIC Devices, Incorporated (NASDAQ: LOGC), a fabless semiconductor company; developer of high performance, low power integrated circuits; today announced its re-entrance to the Asynchronous, Military grade SRAM Market. Our re-entrance and commitment to the SRAM market is in an effort to stabilize the supply for Military/Hi-Reliability grade memory products.

LOGIC Devices will initially re-enter the market sourcing a family of 1Mbit, 128K x 8 devices and later this year will release its 4Mbit, 512K x 8 family. All our 1Mbit product members will be available in multiple speeds with either one or two chip enables and packaged in a variety of hermetic footprints. The initial package footprints will include a 32LD, 0.400 CSOJ, 32LD, 0.400 DIP, a 32LD, Quad LCC and a 32LD, Dual sided LCC. All devices will be available as LOGIC or as DSCC SMD branded product. The DSCC 1Mbit, 128K x 8 SMD's to be supported are the 5962-89598 and 5962-96691.

LOGIC Devices' initial, as well as follow-on SRAM products, are targeted for the Military, Hi-Reliability and Industrial markets with target applications including Missile Defense, Command Control and Communications, high density imaging arrays, Data Recorders as well as, embedded real time array memory.

LOGIC Devices is currently accepting orders for all 1Mbit, 128K x 8 product variants.

LOGIC Devices Incorporated (NASDAQ: LOGC) an ISO9001:2008 registered corporation, is focused on developing high performance digital silicon and integrated product solutions for high performance, power sensitive applications. Our products meet or exceed the requirements for Military/Hi-Reliability, broadcast video, medical imaging, industrial-embedded computer, surveillance, and instrumentation as well as telecommunications companies. More information about LOGIC Devices and its' products is available at www.logicdevices.com.
